

PAUL M. FRIEDMAN, MD

WHY DID YOU BECOME A DERMATOLOGIST I wanted to be a part of the huge technological advances the field was experiencing; this was the way I wanted to make a difference **ADVICE I WOULD GIVE TO A NEW DERMATOLOGIST** Be open to change since the field of dermatology is always evolving **WHAT ONE LIFESTYLE CHANGE COULD MOST BENEFIT OUR HEALTH** Wearing sunscreen **HOBBIES** Basketball and traveling **FAVORITE PART OF YOUR JOB** Helping people realize their natural beauty potential **PRO BONO WORK** I would love to start a charitable foundation focused on helping children with dermatologic issues

READ ALL ABOUT IT

Look for Dr. Friedman's book, *BEAUTIFUL SKIN REVEALED™*, on shelves this summer. It is a **MUST-HAVE BEAUTY SOURCE**, enabling consumers to discern "the help from the hype" for a variety of common conditions—including wrinkles, age spots, acne, scars, birthmarks, red splotches, and more. **GROUNDING IN SCIENCE**, this informative book explains why conditions occur and the impressive results made possible through the latest treatment options. An in-depth guide with a twist, the book features real patients who tell their stories, share before-and-after pictures and explain how minor procedures profoundly impacted their lives. Conversations with the doctor and **INSIDER TIPS** are part of every chapter, helping you understand how the combination of the right dermatologist and the proper procedure can make you look as great as you feel. **PRE-ORDER YOUR PERSONAL COPY OF THE BOOK TODAY** by visiting Barnesandnoble.com or Amazon.com and type in "Beautiful Skin Revealed: The Ultimate Guide to Better Skin."

INSIDE INFORMATION

beautiful skin revealed

Professional and approachable, Paul M. Friedman, MD, employs a manner that is decidedly humble considering his reputation. "Dr. Paul," as he is most commonly referred to by his patients, is nationally recognized as a leader and educator on laser and dermatologic surgery. He has made countless contributions to the field of laser surgery and has been involved with the development of several new laser systems and techniques now commonly used throughout the world.

Paul M. Friedman, MD, board-certified by the American Board of Dermatology, is the Director of the DermSurgery Laser Center in Houston, Texas. He was educated in dermatology at the New York University School of Medicine, one of the nation's top dermatology residency programs. He trained in dermatologic laser surgery and Mohs micrographic surgery at the Laser & Skin Surgery Center of New York. Dr. Friedman has authored over 50 medical articles and book chapters, and has been featured in several periodicals and magazines—such as *The New York Times* and the *Houston Chronicle*, as well as *Harper's Bazaar*, *Good Housekeeping* and *Family Circle*. He has appeared in over 30 news programs on the FOX, ABC, CBS and NBC networks.

Dr. Friedman also conducts clinical research, which has resulted in significant contributions to the field of laser surgery. "Remaining state-of-the-art is a function of making the necessary investments in both technology and advanced training. I had a unique timing advantage," he says. "A great deal of laser technology evolved while I was still in training, giving me incredible exposure and experience. I have since been invited to help refine, determine optimum treatment parameters and train other physicians on modern technology."
